

## CLAIMED COMPACT WITH PRESIDENT

### Is Made With Railroads Which Will Aid Him in Politics in Exchange for Immunity from Prosecution

### Serious Charge of Collusion Made in Senate In- volving Interstate Commerce Commission.

New York, May 8.—The World has received the following dispatch from Washington:

"That President Roosevelt and officials of his administration have assented to an arrangement whereby the great railroads will be permitted to effect a gigantic combination and raise freight rates is now strongly suspected by many senators. That this compact has been carried to such an extent as to result in definitely determining the first commodity on which rates shall be advanced is received with credence almost equivalent to conviction. It is thought that Senators Foraker of Ohio, and Culberson of Texas, will from day to day bring forward a few additional facts calculated to establish this political and business agreement until a grand climax of accusation is reached. They do not intend to rest until some kind of a statement is given out by the President, the Interstate Commerce Commissioners and others interested in bringing about such a restoration of peace between the administration and the corporations. In seeking for positive proof that immunity for violations of the law is to be hereafter granted to railroads, and that in return they will assist in rushing the political program of the President, considerable evidence has been discovered tending to demonstrate these facts:

1. That more than three months ago an agreement was made permitting the railroads to increase transportation rates. In return for this concession the railroads promised that no reduction should be made in the wages of employees. President Roosevelt was greatly alarmed by the widely announced declaration of railroad magnates that material reductions in wages were imperative, because of the Hepburn act involving lessened revenues. The President sent a letter to the Interstate Commerce Commission asking if any sufficient reason was known to exist for the wholesale lowering of wages, and Commissioner of Labor Neill was sent West personally to investigate the object and ascertain just how general would be this movement. The Interstate Commerce Commission replied with a statement that the reduction of wages did not seem to be widespread. Commissioner Neill's report was not made public. As the result of promises that wages would be maintained permission is said to have been given for advancing freight rates.

2. That coupled with permission to increase rates a stipulation was made on behalf of the President that the first advance should be on shipments of meat products. Within five days the information has been given out on reliable authority that the railroads are almost ready to advance freight rates on shipments of meat products from the West to the East. The President expended large sums of money in striving to convict the beef trust and place some of its members in the penitentiary. Although the combination of packers was ostensibly dissolved the prices of meats have been not only maintained but advanced. This has made the beef trust more and more unpopular with the masses. If higher freights necessitate still higher prices for meat the beef trust will be in a still greater disrepute and any attempts of the President to annihilate the trust will be halted with applause.

3. That the granting of immunity for violations of law, such as failure to comply with the commodity clause of the Hepburn act, is made in return for favors extended during the contest for the Presidential nomination and after the national convention. This feature seems to be more or less separate and distinct from the arrangement under which a general advance of freight rates is permitted.

Senator Culberson, following the steps taken by Mr. Foraker yesterday, took his turn in the afternoon in stirring the fire. He said it is generally understood on every hand that the President of the United States and the Interstate Commerce Commission have made an agreement with the great railroad corporations by which they will be permitted openly to vio-

late the Sherman anti-trust act and effect a combination for advancing transportation rates. He read articles from several newspapers making positive statements that a general increase of rates is at hand. "It appears to be accepted as a matter of fact," said Senator Culberson, "that the railroads contemplate raising rates to the extent of several hundred million dollars annually. This will be done in direct violation of the Sherman anti-trust act and the Hepburn date law. It is openly announced and not denied that high officials of the government are permitting this to be done. It is said that the President and the Interstate Commerce Commission are taking no steps to prevent it."

Senator Culberson said his purpose in bringing this matter to the attention of the Senate was threefold: 1. To suggest that it is in violation of law. The Sherman act pro-

## FATHER

### Tied Son to Tree and Whipped Him Because He Was Drunk.

Mt. Vernon, May 8.—C. H. George and Earl George were arrested at their home on the Martinsburg road, south of the city, at 6:30 o'clock on Wednesday evening by Sheriff Clements and Officer McElroy on the charge of assault and battery. Both were locked up in the county jail.

It is claimed that Cliff George, son of C. H. George, went to his home in a drunken condition, and the father and brother tied him to a tree out in the yard and gave him a terrible lashing. The neighbors witnessed the

## CURES HIPPOPOTAMUS OF TOOTACHE

WASHING THE TEETH OF "PETE"

New York, May 8.—With a crowbar and a kitchen scrubbing brush and a bucket filled with an antiseptic solution, Pete, a hippopotamus at the Bronx zoo, has been cured of the toothache. One of Pete's teeth, which is about the size of a granite paving block, had become so radically impaired that it was decided it would be necessary to fill it.

The affected tooth and teeth adjacent to it were cleaned by Dr. W. Reed Blair, of the Bronx Zoo, with whom the hippopotamus has become so friendly that he no longer objects to the presence of the surgeon at his quarters in the zoo antelope-house. Keepers reported to Dr. Blair that the hippopotamus had become rest-

less and that after each meal it (rang) about as if in pain. Dr. Blair went to the antelope house, and, with the help of the keepers, got the hippopotamus to open his mouth. It was seen that one of the teeth had become decayed and the pain was made more acute every time he animal ate and bits of food became lodged in the cavity.

Dr. Blair got a crowbar and with this implement picked the tooth of the hippopotamus. Then he got a scrubbing brush and, dipping it into an antiseptic solution, scrubbed out the tooth. The animal gave no trouble during the operation. As a reward for its good behavior it will now have its tooth filled.

### FIRE AT ALLIANCE.

Alliance, O., May 8.—Fire of unknown origin destroyed the plant of the Gem Clay Forming company today, with a loss of \$22,000. Insurance \$10,000.

### CROKER LANDS A WINNER.

Newmarket, Eng., May 8.—Richard Croker's Rhodora today won the thousands guineas race from a field of 18. The betting was 100 to 8 against Rhodora.

## INJURED

### IN TROLLEY WRECK OF THE TO- LEDO, FINDLAY & FOSTORIA RAILWAY.

### Car Plunged Into Open Switch and Was Badly Damaged—Inspection Boss at Fault.

Findlay, O., May 8.—J. W. Wellman, traveling representative of a Cleveland banking company, and M. Levi, of Waterloo, were seriously injured in a trolley wreck on the Toledo, Findlay & Fostoria railway this morning. The inspection boss left the switch open and the car plunged into the opening. The car was badly damaged and seven other passengers were slightly injured.

## COLLIDED

### Narrow Escape of Steamer at Sea Near Portland, England—Receives Broken Stern.

Portland, Eng., May 8.—The British steamer Matiana, from London, today collided with a steamer of the Hamburg-American line, 20 miles south of here. The Matiana has returned here with her stern broken. The extent of the damage to the other steamer, whose name has not yet been ascertained, is unknown. A tug has been sent to seek her.

## YEGGMEN

### Blow Safe and Secure \$200 in Booty One Robber Was Captured and Another Shot.

Philadelphia, May 8.—Yeggmen blew the postoffice safe at Lancaster, near here early today, securing \$200 booty, and indulged in a running fight with pursuers in which scores of shots were exchanged. One of the yeggs was captured. Another robber was shot by the pursuer. He was carried away by companions. It is expected they will soon be run down.

## IDENTIFY GUINNESS VICTIMS

### Sons Identify Father Lured From His Wisconsin Home by Murderers

### MRS. GUINNESS LETTER

### Matrimonial Proposition Was a Business Affair on Wo- man's Part.

Laporte, Ind., May 8.—The identification of another of the bodies dug up in the Guinness farm near here as that of Ole B. Budberg of Iowa, Wis., and evidence that he, like Andrew Helgelein of Mansfield, S. D., had been brought into Mrs. Bella Guinness' net through "matrimonial" advertisements, was one of the clarifying features of yesterday's developments in the complication of the case. The identification of the bundle of bones and flesh as the remains of Budberg, aged 29 years, and Oscar H., two years his junior.

A soaking rain which fell continuously for 24 hours prevented further excavation about the farm and Sheriff Smutzer devoted his time to unearthing possible evidence which may be used in the trial of Ray Lamphere on the charge of having caused the deaths of Mrs. Guinness and her three children. The result of his investigations were such that Ralph N. Smith, prosecuting attorney for the district announced that he will seek the immediate indictment of Lamphere and will endeavor to have the case called for trial at the next term of court, which is scheduled to start May 11.

"Lamphere will be on trial within three weeks," said Mr. Smith. "So far as the state is concerned the case is complete and I am ready to present the evidence to the court and jury. I am satisfied that we have collected testimony of such character that Lamphere's responsibility for the deaths in the fire will be established beyond a reasonable doubt."

Postponement of grand jury action on the case against Roy Lamphere, accused of first degree murder in connection with the burning of Mrs. Belle Guinness and her three children here April 28, was decided upon last night at a conference of officials of Laporte county. The action was taken on the advice of C. J. Smith, a Chicago detective, who was called here by the local authorities to aid them in solving the mystery of the nine bodies dug up on the Guinness farm this week.

While Ralph N. Smith, prosecutor of the county, had announced in the afternoon that he was ready to proceed before the grand jury next Monday, new evidence unearthed yesterday led to the change in plans. The conference last night also considered letters which Mrs. Guinness had written to Andrew Helgelein, who was one of the persons to meet death on her farm.

Two witnesses to Lamphere's action and conversations immediately preceding the fire were also examined. These were Louis Roulle, a local saloonkeeper, and Nettie Shoemaker, keeper of a resort near here. The Shoemaker woman's testimony supplemented that given earlier by Bessie Wallace, an inmate of her place who had been arrested by Deputy Sheriff Marr and questioned during the day. More new witnesses are expected to be brought before the authorities today.

Waupaca, May 8.—The letter which Carl Peterson of Waupaca received from Mrs. Belle Guinness, the alleged Laporte murderess, has been translated from Norwegian into English. While other translations may differ in only the minor details, the following is practically the substance:

"Dear Sir—Some time ago received from you a letter in answer to my ad in the Scandinavian I will with pleasure answer the same. The reason I waited for some time is that there has been other answers to the same ad. As many as 50 have been received and it has been impossible to answer all. I have picked out the most respectable, and I have decided that you are such. "First, I will tell you that I am a Norwegian, and have been in this country for 20 years. I live in Indiana, about 50 miles from Chicago, and one mile north of Laporte. I am the

## DELIVERED ADDRESS ON AWAKENING OF CHINA

WU TING FANG

New York, May 8.—His Excellency Dr. Wu Ting Fang, minister of China to the United States, delivered in Carnegie Hall at the tenth meeting of the Civic Forum an address on "The Awakening of China," which many who heard regarded not only as enlightening and timely, but as perhaps the most important unofficial message voiced within a decade from the Orient to the Occident.

With broad scholarship and democratic frankness Dr. Wu Ting Fang discussed the so called "yellow peril,"

China's rapid growth as a military power and her equally rapid and remarkable progress in the direction of representative government, modern education and her approaching emancipation from such ancient vices and barbaric customs as opium smoking and the binding of the feet of the women and children.

At the close of his address Dr. Wu, who was greeted with prolonged applause, undertook to answer any questions that might be asked pertinent to the subject.

## CLEVELAND CAVALRY

### ORDERED TO TOBACCO DISTRICT AND PASS THROUGH COLUM- BUS TODAY.

### General Critchfield Will Put Army of Secret Service Men at Work on Night Riders.

Columbus, May 8.—Cavalry troop A. of Cleveland, passed through Columbus early Friday enroute to the tobacco district of Adams county. Troops now in the field consist of Troop B of Columbus, Troop A of Cleveland and Company M, Seventh regiment of Manchester. These soldiers are hovering close to the river border so as to be ready to resist an invasion of night riders from Kentucky.

A cold rain has been falling since the troops entered the field and the soldier boys are suffering hardships. The law and order league, which is organized in opposition to the night riders has a big force of detectives at work and many arrests are expected. As soon as the bill appropriating \$10,000 for that purpose is signed Saturday, Adjutant General Critchfield will put an army of secret service men at work.

## BURNS TO THE GROUND

### NARROW ESCAPE OF TWO HUN- RED INMATES OF WASH- INGTON CO. INFIRMARY.

### Physicians and Nurses From Marietta Are Rushed to the Scene of Conflagration.

Marietta, O., May 8.—The Washington county infirmary was burned to the ground at noon today. Two hundred inmates of the institution were in a panic, and many were seriously injured. Three leaped from windows and were badly hurt. Superintendent Joseph Young discovered the flames in the basement and spread the alarm. He was fatally burned. An explosion in the laundry department caused the fire.

The inmates were in a panic immediately after the alarm was given and their screams were heard a mile. Physicians and nurses from Marietta have been rushed to the scene.

## GUERNSEY COUNTY TREASURER INDICTED

Cambridge, O., May 8.—The Guernsey county grand jury returned an indictment against County Treasurer Jacob Lafolette this morning for embezzlement.

## BUSINESS DISTRICT

### OF ATLANTA, GA., GUTTED BY FIRE AT EARLY HOUR THIS MORNING.

### Loss Estimated at More Than Million and Half—Fifty Business Houses Complete Wrecks.

Atlanta, Ga., May 8.—A disastrous fire started early today in the center of the wholesale district in the Evans block, and half of the largest and best business buildings here were burned. Fifty business houses are complete wrecks. The loss is estimated at more than \$1,500,000, and will fall most heavily on S. M. Inman, a wealthy capitalist, who owned practically all of the buildings. For four hours the flames raged. The entire block bounded by Mitchell, Madison, Forsyth and Nelson streets was burned. The terminal Hotel is a total loss. All the guests escaped and so far as is known no one was killed or seriously injured in the fire which was the most serious Atlanta has experienced in years. The insurance is heavy.

## LIFE SAVERS

### RESCUE SEVENTY-THREE MEN FROM GERMAN SHIP ASHORE OFF LONG ISLAND.

### Many Seamen Were Lashed to the Deck and Were so Weak They Were Unable to Walk.

New York, May 8.—Early today life savers rescued 73 men from the big German ship, Peter Rickmers, ashore on the south shore of Long Island. The men had practically been given up for lost when a slight subsidence of the storm enabled the life savers to reach the ship and cut loose seamen who were lashed to the deck, and many of the crew were so weak that they had to be carried to the lugs.

## YOUNG LAD

### Aged Eight Years in Prison Charged With Homicide Pushed Com- panion in River.

New York, May 8.—The youngest person charged with homicide with whom the authorities have had to deal for a long time, is in the hands of the Children's Society today. He is eight years old, Charles Dokoupio. According to the police he pushed a companion, George Kralkik, into the East river in a quarrel over two cents. Dokoupio said he had helped George collect wood and sell it and that George refused to give him his share, two cents.

## CASHIER'S ALLEGED SHORTAGE

### Allegheny Man Said to Have Stolen \$429,000 of Bank Funds

### HELPED HIS FRIENDS

### Was Prominent in Politics and a Close Friend of the Late Senator Quay.

Pittsburg, Pa., May 8.—An effort is being made by the officials of the Allegheny National bank, whose cashier, Wm. Montgomery, was arrested Thursday charged with the embezzlement of \$400,000 of the bank's funds, to learn the names of the men Montgomery is alleged to have assisted with bank funds during the financial stringency. Montgomery maintains he is in a position to reimburse the bank for every cent. The bank opened today as usual. There was no run although bank officials say they can withstand one.

Pittsburg, Pa., May 8.—Wm. Montgomery, cashier of the late Allegheny National bank for over 20 years, was arrested late yesterday on a charge of embezzling \$429,000 of the bank's funds. He was arraigned before United States Commissioner Lindsay, and held for the Federal grand jury under a bond of \$50,000 which was furnished.

The financial standing of the bank is in no wise affected by the defalcation as it is in a position to bear the loss without embarrassment. The bank has a capital stock of \$500,000; surplus \$700,000; undivided profits \$129,461; bank building, cash on hand, etc., \$866,972; due from other banks \$106,744; deposits \$2,444,863.

The alleged defalcation was discovered and the complaint by National Bank Examiner Wm. L. Folds. Soon after the close of banking hours the warrant was issued and arrest followed.

According to Examiner Folds, the speculations have gone on for several years and were covered up on the occasion of each visit of the examiners by means of a cashier's check.

The recent defalcation for more than \$1,000,000 by two employees of the Farmers' Deposit National bank is said to be indirectly responsible for the discovery in the Allegheny National. Since the exposure of the speculation in the Farmers', is said, most of the banks of the city have been shifting clerks from one position. Through such a shift, suspicion was aroused in connection with the affairs of the Allegheny National.

The Allegheny National is one of the oldest and generally regarded as one of the strongest institutions of the city. It has been more or less associated with the politics of western Pennsylvania, and its directors' room was the scene of many important political conferences, particularly during the life of the late Senator Quay.

Mr. Montgomery has always been prominent in politics and was a close friend of the late Senator Quay. He was also prominent socially. News of his arrest came as a shock to his acquaintances and has caused a sensation.

Examiner Folk expressed the belief after making the charges, that Montgomery had used the funds of the bank to assist his friends who were in tight places financially. Those who know the cashier feel positive that he did not personally profit by his speculations.

## MIDSHIPMEN

### Have Been Physically Disqualified as Result of Recent Examinations for Promotion.

Washington, May 8.—The navy department has just received a report from Captain Chas. J. Badger, superintendent of the naval academy showing that 54 midshipmen have been physically disqualified as a result of the recent examinations for promotion. No definite action has yet been taken, but in the case of the 13 members of the first class in the list of diplomas will be given if the mental examination is passed, but if the physical ailment is not eliminated in two years, their resignations will be compulsory. Defective vision is the most common ailment.

## BIG SHOW

ARRIVES IN NEWARK AND HAS PITCHED ITS TENTS ON LOCUST STREET.

Many People Witness Unloading of Circus Trains—Anticipate Principal Feature.

Running a circus is great fun in good weather but the conduct of such an enterprise resembles General Sherman's description of war when the weather is rainy and disagreeable.

There is no life which appeals to the average mortal more than being with a circus when one comes on a nice day. There is nothing today for which the average Newark citizen is more thankful than because he is not connected with the Hagenbeck and Wallace circus and not responsible to the public to provide an entertainment under a tent "rain or shine" as advertised.

It is a great compliment to the Hagenbeck and Wallace Show when it is said that the performance is giving excellent satisfaction in spite of the bad weather this spring. Wherever the circus has appeared it has encountered rain but the newspaper reviews agree that an excellent performance is given, that the tent is waterproof, and that the rain does not greatly lessen the enjoyableness of the circus performance.

The show played to two vast throngs in Columbus yesterday in spite of the rain. The regular show lot was under water so the circus changed lots just as it had to do here. At Columbus it took a small lot near the Big Four depot—so small that the menagerie could not be put up. The State Journal today praises the show very much with all these things to work against giving a good performance.

The third section of the show train did not reach Newark until nearly 7 o'clock this morning. The trains were late in leaving Columbus and there were many delays enroute. The first section arrived here much earlier and the second section came in at daylight.

The trains were unloaded a block or two west of the Pennsylvania depot and the usual crowd of curious sight-seers were attracted. People of Newark are not held back by rain when there is the unloading of a big circus to be witnessed.

"It is awful weather," said Col. B. E. Wallace, who showed up at his office on the show train at 8 o'clock this morning. "I don't know when I have seen such a stretch of bad weather." This, too, when Colonel Wallace has had twenty-four years experience in the circus business. He is a pleasant appearing gentleman and well loved by everyone with the circus.

Right back of his office car was a dining car where the business staff and principal performers breakfasted. The working men breakfasted on the show lot where a cook tent was put up in short order. James Davis is the caterer of the Hagenbeck and Wallace Show and he shows he is to the times by the quick order with which he had his cook tent up this morning.

There are seven sleeping cars. One car is devoted to state rooms, the others to berths. The cars are nicely fitted up and are very comfortable. The unusual length of the cars impressed those around the railroad. As many as 70 people sleep in some of the cars and at that are comfortable.

The show is among the largest in the world. In some respects it completely outclasses other shows. The animals are of course the great feature. As the cages were hauled to the lot this morning there was a great deal of speculation as to just what beast or bird could be found in such and such a cage.

Many of the members of the business staff are depressed today owing to the illness of Bernard L. Wallace, a nephew of the proprietor of the combined circuses. Mr. Bernard Wallace is treasurer of the show. He was taken ill in the trolley wagon at Columbus yesterday and is in rather a dangerous condition at the show train. He is being looked after with great care and a physician is constantly in attendance.

## THE WILD ROSE

(By S. Arenia Price.)

Though there are other roses,  
More stately and more fair,  
The wild rose sends its fragrance  
Upon the summer air.

In bypath, lane or mountain,  
It sweetens care and toil  
For travelers weary—  
For tillers of the soil.

If envies not the Marechal Niel,  
Or stately Jacqueminot,  
But blooms in sweet profusion  
For those who come and go.

Along the dusty highway,  
And gladdening their day,  
Finds fullest joy, in living  
And blooming where it may.

## \$1,000,000 LOST IN TOLEDO.

How Brand Whitlock's City Tried to Run a Gas Plant.

When Toledo installed her natural gas plant in 1886, to be abandoned eight years later, it was expected that the price of gas would be brought to a very low figure.

The original cost, \$1,500,000, was met by the issue of 4 1/2 per cent bonds, \$1,050,000 of which is still unpaid. The business was unsuccessful from the start, and the very men who had advocated the undertaking and made their private profit from it soon advised that it be sold. As its gas field became exhausted the city tried to secure a new supply, but its efforts were frustrated by the fact that it had to advertise its intention for sixty days, giving others a chance to get in before it.

Finally the main part of the plant was leased, and in 1903 the lines and mains outside the city were sold for \$102,000, of which \$27,000 was protested by the purchasers on the ground that several miles of pipe included in the sale was not delivered, having previously been stolen from the city. It is impossible to tell how much the city will ultimately lose by this experiment, but it will be undoubtedly in excess of \$1,000,000.

A request to the mayor for information elicited a reply from his secretary which gave no hint that a loss had been incurred except the following:

"However, the experiment was of much greater benefit to the city than the figures show, for this reason: The consumers of natural gas in Toledo have been given a lower rate than any other city in the country, with perhaps one or two exceptions, for practically the last fifteen years. The low rate was brought about by the competition that began when the city entered the field."

If this were true it might be an adequate offset to the loss on the plant, but unfortunately the facts do not bear out the statement. The 1907 edition of Brown's Directory of American Gas Companies gives more than 100 cities and towns in Ohio alone where the rate for natural gas is lower than in Toledo. This is a good example of the sort of "information" which is given out by city officials who are in favor of municipal ownership for political or other reasons.

## SOME INTERESTING DECISIONS

Cities Liable For Damages When Persons Are Hurt or Killed by M. O. Electric Current.

It has been claimed that municipal electric light plants are not liable to one item of expense, which in the case of private plants is sometimes a very large one—viz, damages for injury or death due to contact with a live wire. If this were a fact, it would only go to show the unfairness resulting from municipal ownership in making an innocent individual bear all the burden of an accident which may result from municipal parsimony or carelessness. While the decision of inferior courts has sometimes been in line with this claim, recent decisions of higher courts are opposed to this view.

In the case of Davoust versus the city of Alameda the supreme court of California held the city liable for damages, but the case was complicated by the fact that the municipal lighting plant was engaged in a commercial business as well as in lighting the streets. The supreme court of Indiana has just handed down a decision where this complication is not involved. In the case of Aiken versus the city of Columbus it holds that municipal ownership and the management of municipal utilities do not make such business a government function to the extent of relieving the city from liability for negligence, and it must pay damages to a person injured by the fall of a defective live wire. Although they are not at hand for reference, we recall similar decisions by the courts of other states.

It is worth noting that in general where damages have been assessed against municipal plants or where extraordinary legal expenses have been incurred on account of them the amounts have not been charged up against the operation of the plants, but have been paid out of the general tax levy, thus enabling the plants to show a lower "cost" of operation than would be the case if the items had been properly charged.

## "CARE, SENSE, CONSCIENCE"

These Three Are Neglected in Public Ownership Enterprises.

The Brooklyn Standard Union in a recent editorial dealt at length with municipal socialism. After enumerating several of the ways in which the city suffers from the maladministration of the utilities already committed to its care the writer sums up as follows: "What's the good of extending the list of failures and utilities? All that it would do would be to illustrate a point already sufficiently patent and painful—that nation, state or city does any job intrusted to it with less care, sense and conscience than the individual manifests when he is working for himself. Care, sense, conscience—that is the trinity of gods whose altars grow dusty when the municipality keeps the temple. In every failure and difficulty that the city has experienced you see red tape, a conflict of authority, an absence of foresight, the preference of party or patronage to the public welfare, a low civic conscience, perhaps a lower civic intelligence, the unhappy consequences of collective responsibility, or, rather, of irresponsibility, as compared with individual responsibility. The other fellow pays—in welfare, health or taxes. The public servant is not exposed to the full operation of cause and effect."

## PAST CHANCELLORS

HOLD CONVENTION OF NINETEENTH DISTRICT IN THIS CITY THURSDAY.

Class of Nineteen Initiated Into the Association and Splendid Banquet Enjoyed.

The convention of the Past Chancellors of the Nineteenth district comprising the counties of Coshocton, Guernsey, Licking and Muskingum was held here Thursday and was a very gratifying success. It was the largest and best convention that has been held since organization of the association. Judge E. M. P. Brister, president of the association, presided over the meeting and C. W. Highfield of Zanesville, acted as secretary. Past Chancellors were present from the lodges of Muskingum and Coshocton counties and from the lodges in Utica, Granville and Newark. A class of 19 was initiated into the association. Owing to a provision in the constitution which fixed the date of the meeting on Thursday, many of the members of Newark lodge, which meets that night, were unable to attend the meeting of the association. After the business of the association had been transacted it was ordered that the next meeting of the association to be held in August, be held in Newark, so well pleased were the members of the association with the meeting held here Thursday. After the adjournment the members of the association repaired to the cafe of Joseph Kuster, Jr., where a fine banquet was served and was enjoyed by all.

## WALKED MILES TO SEE CIRCUS

The circus and the county fair still have some attractions for the older ones as well as the young.

In proof of the attraction of the circus, the statement of James Moran, a farmer living several miles southeast of the city is given plenty of credence "Jim", as he is commonly known in the Blue Jay school district, solemnly certified that he left home at 2 a. m., Friday, strapped his shoes and a bag of chewing tobacco across his back, and started on a fifteen mile barefoot hike to Newark to witness the Wallace-Hagenbeck show parade—and, perhaps the show itself.

He arrived in the city mud-bedaubed and tired about 8 o'clock and hid himself to the neighborhood of the show cars, there to behold the elephants in all of their glory, and to cast sheepish eyes at the passing crowds of early morning sight-seers. Jim saw the wagons and the horses and claims that he did get a peek at one or two freaks that the side-show manager wasn't cute enough to hide from his piercing gaze. Jim doesn't claim to be walking for wages or powers for his pedal extremities, and ventured to suggest that at places in the road the mud was nearly up to the hubs and that on two occasions he had to refill the gasoline tank and put on the high speed clutch before he could pull from the miery depths of the roadway that held him under the downpour of rain.

At any rate, Jim saw the parade.

## OBITUARY

### E. JEFFERSON DUNCAN.

Mrs. Harvey Gunnion, residing Buena Vista hill, received notice the death of her brother, E. Jefferson Duncan, a prominent merchant of Syracuse, N. Y., Thursday night. Mr. Duncan's death was due to an attack of pneumonia. Mrs. Gunnion left Friday noon for Syracuse.

### MISS EDITH CONRAD.

Miss Edith Conrad, aged 21 years, died at her home in St. Clair street, on Tuesday afternoon, after an illness of several months with a complication of diseases. Miss Conrad is survived by a sister, Mrs. Ora Conrad, her parents both having died some time ago. Miss Conrad was formerly of Utica, but her residence in the city has won the admiration and esteem of a number of friends by her lovely characteristics. The funeral services were held Friday afternoon at 2 o'clock at the home, Rev. John W. Weeter of St. Paul's Lutheran church officiating. The interment was made in the Vau-atta cemetery.

## OBITUARY.

Miss Nellie May Baughman was born near Hanover, Ohio, February 28, 1886. Was married to Herbert Catton December 26, 1905. Little Helen, an angel child, came and added a new interest to the home. Love's stream was gliding placidly along, bearing its sweet and hallowed influence to the community and all had only the thought that it would continue uninterrupted. Love is immortal as well as love's object, and so what we love may be transferred to another sphere. This transfer of interests came to this happy home, when, last Wednesday Mrs. Catton caught fire from a hot plate. At first hope built its air castle that soon all would be well again. All that skill and care could do were exhausted and the body was not able to endure the shock, and so permitted Mrs. Catton to go home Tuesday noon, May 5, 1908, aged 22 years, 2 months and 17 days. "But to live in hearts we leave behind is not to die."

Mrs. Catton is not dead. She did not make a public profession of Christ until on her bed of suffering, where she found Christ a friend of the sufferer. Even though suffering pain of the most excruciating character she was conscious to the last, and the company of friends who gathered around her abedded couch, will never forget to their dying day the rich, resonant, mellow and full voice as she united in singing "O, Happy day, that fixed my choice, on thee, my Savior and my God," and "Nearer, My God, to Thee." She then asked if in Heaven she could look down on all and see what they were doing. Then calling for her precious little angel, Helen, and kissing her a last good bye, and then kissing all, she urged them to meet her in heaven. She asked for the sacrament of baptism; then directing all her affections to Jesus, Love, My Soul, and "We'll Never Say Good Bye in Heaven," he sung at her funeral—then peacefully falling asleep "awoke in heaven." We believe that "It is better to have loved and lost, than never to have loved at all." "Better to love a saint than never to have had a saint to love." Then even our regrets are varied reminders that we have once been wealthy and though our rose has blown, and left behind it only thorns, still they are thorns of the rose. We can ill spare her, but God knows best. The funeral services were conducted from the First M. E. church Thursday at 2 p. m., by the pastor who married and baptized her.

## AMUSEMENTS

### HAGENBECK-WALLACE SHOWS.

The circus is a small world of its own, and that is what hundreds of people thought who assembled at the show grounds today to watch the unloading of the big Hagenbeck and Wallace circus trains, five in number. The great circus carries 1000 employees, 400 horses, 20 elephants, a herd of camels, two score of cages of wild beasts. The circus is and must be a matter of interest to human kind. The day has gone by for the song that it is a child's engagement. The truth is that there is no kind of amusement in the world that so completely sweeps up the entire human family. About everything else under the sun which comes labelled as entertainment will find some one to rebel and turn away, but when it comes to a circus you will find all present.

Among the top liners of the circus profession today may be found the Tasmauia troupe, aerial experts. The Tasmanians comprise seven people, and they are the popular aristocrats in the realm of the arena and the public seems to never tire of watching their performance. Their work borders upon the marvelous, and in fact some of the attainments are of such complex difficulty that their best tricks frequently pass with but little more notice from the public than their simple displays the audience following their intricate and perplexing paradox.

The genius and dexterity of the Tasmanians frequently brings forth loud and spontaneous applause from their fellow performers, who, like the spectators, never grow weary of their admirable act. The Carl Hagenbeck & Great Wallace Shows are noted for fine and brilliant costumes but there is no better dressed act or more pleasing and attractive performance for the feminine portion of the circus patrons than that of this European novelty. These artists are the undisputed champions of all they do, and theirs is one of the most fascinating circus acts of the age. The circus is exhibiting in this city today.

### ORPHUM THEATER.

At the popular Orphum theater this evening Mr. Lawrie promises one of the cleverest prestidigitators ever seen in this city, Mr. Ernest Moore. The tricks he does put an audience in complete wonderment especially his wonderful trunk mystery, where he has a canvas cover completely around the box, then securely laced up, from which he makes his escape in a few minutes. Another feature will be Miss Ada Melrose who bursts on an audience in a blaze of glory with an avalanche of dainty togs, is a delightful entertainer, singing very sweetly and her dancing is away above the average. The bill should average with any one ever presented even at dollar prices. Every feature will positively appear.

### WEDDINGS

#### INGMAN-FRYE.

On Thursday evening, Mr. Rusk M. Ingman and Miss Mayne Fry were united in marriage by the Rev. John W. Weeter, pastor of St. Paul's church at his residence, 36 West Locust street.

**Typographical Error.**  
A typographical error in the obituary of James T. Hendricks, said that he was 8 years of age. It should have read 81 years of age. He is survived by three sisters, Mrs. Mary Williams, Mrs. Smedley and Miss Catherine Hendricks who lived with her brother.

**Mr. Imhoff Recovering.**  
Mr. Samuel Imhoff Sr., the veteran, expressman, who had the misfortune to break his leg, is reported on the fair road to recovery, all owing to good nursing and surgical attendance. Mr. Imhoff was seriously injured and considering everything, his early convalescence is indeed remarkable.

**The Aerial Quartet.**  
An error was made in last night's issue of the Advocate in the statement that the Aerial Quartet was composed of Messrs. Reynolds, Jones, Nussbaum and Horner, and also regarding the dates to be filled. The Aerial Quartet is composed of the following well known Newark musicians, and has filled a number of important engagements through the state, and has several other engagements on its schedule: Prof. W. W. Flora, first tenor;

James Richter, second tenor; R. F. Williams, baritone, and Dr. C. B. Keller, bass. This correction is made in justice to all concerned. "Honor to whom honor is due."

**Faints on Street.**  
A man whose name is believed to be Ernest Rodney and who is thought to be a traveling salesman from Chicago, fell fainting Friday afternoon at the corner of Third and Church streets. An ambulance call was turned in, but a policeman called the patrol wagon from police headquarters, and the man was placed on the emergency stretcher and taken to the City Hospital. Drs. C. F. Legge and W. H. Knass who were called to attend the man, stated that they feared he was suffering from an attack of brain trouble. At a later hour Friday the stranger was in a comatose condition.

## NEWARK P. O. BILL IN CONGRESS

Contents of Appropriation Bill Not Yet Made Public—Interview With Mr. Ashbrook.

Washington, May 8.—If the House appropriation bill, which has not as yet been made public, contains an acceptance of the Sherwood site for the Newark postoffice, and as passed, the bill then goes to the Senate. It will be referred to the Senate committee. The Foraker bill introduced yesterday, as telegraphed the advocate, will then be considered and if an additional appropriation is favorably recommended the bill will be so amended and if passed by the Senate, will then be sent back to the House for concurrence.

The Newark postoffice matter was again brought to the attention of Congressman Ashbrook today. Mr. Ashbrook said:

"I am not in a position today to officially say whether the acceptance of the Sherwood site is in the bill, but believe it is and if so, it will likely go through regardless of the Foraker bill unless it is opposed in the Senate."

**ALEXANDRIA.**  
Alfred Funk of Dayton, arrived Saturday at the home of B. L. Taylor, where he expects to spend the summer.

Ed Smoots of Granville, was in town on Monday.

## WORTHLESS CHECK

PRESENTED BY STRANGER TO GRIGGS DRY GOODS STORE THURSDAY.

Manager Becomes Suspicious and Notifies Police—Fellow Escapes—Police on Trail.

A well dressed, well built stranger, weighing possibly 180 pounds about 5 feet 11 inches in height, and of sandy complexion, with a slight, reddish mustache, presented a worthless check for \$138 in payment for a \$2.50 umbrella at the Griggs dry goods store, Thursday evening.

The stranger offered the check to the clerk, who went to Mr. W. H. Mazey, manager of the store. The check was drawn on the Franklin National bank, and bore the signature "W. J. Henderson." Mr. Mazey told the man that he would have to be identified before the check would be accepted, so the stranger left, returning shortly with a local cab driver, who identified him. During the man's absence, the manager became suspicious and when the fellow returned with the cabman, Mr. Mazey refused to accept the check unless the stranger would be identified by Mr. Henderson, whose plumbing shop is but a few doors from the dry goods store. This the fellow refused to do, saying that it was unnecessary for him to go to such trouble, and that he would let the purchase go, wherewith he left.

After the stranger had departed Mr. Henderson was called on the phone and denied having written a check for any such amount. Furthermore, the check was not written from a private book, but from the bank check forms. The check was made payable to the bearer, whose name was not given.

Upon being notified of the attempt of the would-be swindler, Mr. Henderson promptly notified the police department and Chief Zergiebel now has men on the case.

The Advocate conducted inquiries at other downtown business places, and no further traces of the man's doing were found, so that his one failure was probably a lesson of warning and he left the city.

## MR. ASHBROOK

Member of Committee to Draft Resolutions Upon Death of Judge Smyser.

Washington, May 8.—Messrs. Keifer, Mosser and Ashbrook were appointed by the Ohio delegation in Congress to draft resolutions on the death of Judge M. L. Smyser and they submitted the following report today:

The Ohio delegation in the Sixtieth congress of the United States are brought together by the sad intelligence of the sudden death of Hon. Martin L. Smyser at his home at Wooster, Ohio. He served with honor and distinction as a representative in the Fifty-first and Fifty-ninth congress. He was recognized as a faithful, able and courageous legislator. His life was a marked success, full of good deeds. He was genial, kind, strong, earnest and noble. Words cannot express our feelings in the presence of his untimely death to his sorrowing wife and relatives. We extend our deepest sympathy.

(Signed) Joseph B. Foraker, Charles Dick, Nicholas Longworth, Timothy T. Ansberry, Matt R. Denver, J. Warren Keifer, Ralph D. Cole, Isaac R. Sherwood, Henry T. Bannan, Albert Douglass, Edward L. Taylor Jr., Grant E. Morfitt, J. Ford Lanning, Beman G. Drew, Capell L. West, William A. Ashbrook, James Kennedy, W. Aubrey Thomas, Paul Howland, Theodore E. Carlton.

## HEBRON.

The Hebron high school committee has already closed contracts for another course of six lectures, to begin next October. The course will include the best talent now in the field, including Beckard, the cartoonist; MacDowell, the traveler; Stevens, the zoologist, and others of equal merit. The course just closed was a success from first to last, and the higher priced talent of the coming one is sufficient guarantee that it will be even better.

The board of education are evidently well pleased with Prof. Coler as superintendent of our schools, having recently elected Mr. Coler to the position for the ensuing year at an increase in salary.

The Waiter's Preference.  
At a dinner one day some men were discussing the merits of different species of game. One preferred canvas back duck, another woodcock, and still another thought a quail the most delicious article of food. The discussion and the dinner ended at about the same time.

"Well, Frank," said one of the men, turning to the waiter at his elbow, who was as good a listener as he was a waiter, "what kind of game do you like best?"

"Well, massa, to tell you the truth, almost any kind of gamell suit me, but what I like best is an American eagle served on a silver dollar."

**IDENTITY GUINNESS VICTIMS**

(Continued from Page 1.)  
sole owner of a nice home, pretty location.

"There are 75 acres of land, also all kinds of crops, improved lands, apples, plums and currants. I am on a boulevard road and have a 12-room house, practically new, a windmill and all modern improvements, situated in a beautiful suburb of Chicago worth \$15,000.

"All of this is pretty near paid for. It is in my own name. I am alone with three small children, from 5 to 11 years of age. The smallest is a little boy. The two largest are girls. All frisky and well. I lost my husband by accident five years ago, and have since tried to get along as well as I could with help I could hire. I am getting tired of this, and I have found that it is not well to trust others with so much.

"It is too much for me to look after things, and things are not as I want them anyway. My idea of them is to take a partner to whom I can trust everything, and as we have no acquaintance ourselves I have decided that every applicant I have considered favorably must make a satisfactory deposit of cash or security. I think that is the best way for parties to keep away scammers, who are always looking for such opportunities, as I have had experience with them, as I can prove.

"Now, if you think that you are able in some way to put up \$1,000 cash, we can talk matters over personally. If you cannot, is it worth while to consider? I would not care for you as a hired man, as I am tired of that, and need a little rest in my home and near my children. I will close for this time.

"With friendly regards,  
"MRS. P. S. GUINNESS."

"Laporte, Ind."  
The first skeleton found lay in a wooden box three feet under the surface. Other bones were a few feet away from the box. Also were found a pair of woman's shoes. They were of calf skin and heavy. Part of the shoes had been burned and some of the bones also showed signs of fire. The body in the box had been dismembered in exactly the same manner as those found Tuesday and Wednesday. Not one-tenth of the plot in which murder victims were buried has been excavated.

Laporte, Ind., May 8.—Shortly after the search for bodies buried on the Guinness farm was resumed Friday, another skeleton was discovered. It was impossible for the digger to determine the sex of the victim. This is the tenth body found since Tuesday, and including the bodies of three children and women found the day after the fire, makes 14 bodies unearthed on the farm.

Another confused mass of bones was found later and the sheriff believes the grave contains two bodies. Decomposition had gone so far that it was difficult to tell whether one or two bodies were in the grave.

Several bones of another body were found shortly before noon by diggers at work in the plot adjoining the Guinness house. They were taken from a hole about two feet from those first found this morning. The makes three bodies uncovered today and twelve since Tuesday.

Chicago, May 8.—Revelations made in connection with the "house of horrors" operated at Laporte, Ind., by Mrs. Belle Guinness, have caused United States District Attorney Sims to issue orders for the arrest of every manager of any matrimonial bureau operating in the Chicago district. I. R. Warn, said to be a wealthy proprietor of an "affinity bureau," was the first to be arrested. He was taken on the charge of using the mails to defraud in the operation of a bureau under the name of Kate Warn, his wife.

Assistant District Attorney Shiver, who has had charge of the affinity prosecutions, and who has secured evidence against 22 concerns will continue his efforts. "We have conclusive evidence to prove certain matrimonial agencies have sent young girls to disorderly places," he said. "The revelations in the Laporte case have been such that we almost believe different alleged 'match-maker' bureaus have sent men and women to such murder establishments as that operated by Mrs. Guinness."

**DENVER HOTELS**

**PREPARING TO ENTERTAIN THE CROWDS WHICH WILL VISIT NATIONAL CONVENTION.**

New Auditorium, Where Delegates Will Meet Has Seating Capacity for 12,300 People.

Denver, Col., May 8.—The capacity of this city for hotel accommodations will be tested when the delegates come to attend the Democratic national convention here July 7. Denver prides itself on being a city of hotels and preparations are rapidly going forward for taking care of the great crowd. The largest gathering ever convened in Denver up to this time was when the Grand Army of the Republic had its annual reunion here two years ago. At that time 75,000 visitors were within Denver's gates and every one was well cared for and there was not a single instance of overcharging at a hotel or restaurant.

Denver has more and better hotels in proportion to her population than any city in the United States. There are 200,000 people here and according to the estimates of the hotel men there are additional quarters for 100,000 in the hotels of the city. It is not expected that so large a number will come to the Democratic national convention that the capacity of the hotels will be severely tested, but every care is being taken so that there will be desirable quarters for all. The Chamber of Commerce has guaranteed to all who come that prices for rooms at the hotels will not be raised and there will be no additional charges for meals because there is a convention in the city. Denver has had more than 200 conventions within the past four years and in no instance has there been a case of overcharging. One hundred thousand tourists come here every year to find recreation and hotel men have learned that it is best to treat all guests fairly in order that increasing numbers may return each year.

Five immense hotels have been built in Denver recently and others have been enlarged so that their capacity has more than doubled. The growth of the tourists business each year and the prospects of an immense crowd at the Democratic national convention has stimulated the residents of Denver to provide the best accommodations for their visitors.

The chief reasons for believing that a large crowd will come to the convention in July are that each year the summer migration from the east begins about the middle of June and continues all summer. By the first of July it is at its height and thousands of tourists are arriving in Denver daily to spend the summer. These throngs, added to those who come to attend the convention, will make a record crowd for Denver to take care of hence the extra preparations.

Nearly every hotel in Denver provides a free convention hall for bodies that meet in this city in such small numbers that they can be accommodated in a moderately sized assembly room. Convention getting is a regular business and a Convention

**SICK HEADACHES**

**Distressing Attacks to Which Many Women Are Subject.**

**What the Tonic Treatment Has Done to Correct the Cause of This Recurring and Painful Illness.**

There are few ailments that cause more genuine misery in the home than the attacks which are generally termed sick headaches. These attacks are often periodical and when the mother of a family is prostrated at intervals there is not only her own suffering to consider but the discomfort caused the other members of the household. Too often the recurrent symptoms become regular and familiar to those about her that the sufferer gets but little sympathy in her awful suffering.

Sick headaches arise from a variety of disturbances confined to the stomach and digestive tract and most of them can be cured or relieved to a marked degree. The tonic treatment with Dr. Williams' Pink Pills has been successful in a large number of cases, one of which is that of Mrs. Mary A. Terry, of 721 East Main street, Clinton, Ill. She says:

"For thirty years I was subject to sick headaches. They began when I was a young girl and would occur as often as two or three times a week, seldom missing one. When these attacks came on I would get very sick at my stomach and vomit. The strain was so great that the blood-vessels in my head would swell up, my eye-balls would feel hot and the muscles in my neck stiff and sore. During those spells the pains in my head were intense and throbbing and would sometimes last for three days. I would be unable to sit up, being often confined to my bed.

"All of my mother's family were subject to violent headaches and the doctors told me I inherited it. They said I was in a bad condition and that it would take some time to cure me. They never gave me more than temporary relief and after years of doctoring I gave them up and started taking Dr. Williams' Pink Pills. I began to get a little better after taking a few boxes and steadily improved until I was cured. I have felt well since and never have any more trouble with my head. I have always recommended Dr. Williams' Pink Pills to anyone suffering as I did, for I have the greatest confidence in them."

Dr. Williams' Pink Pills are sold by all druggists, or sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes, for \$2.50, by the Dr. Williams' Medicine Co., Scarborough, N. Y.

league, with experts at securing conventions in its employ, thrives here. The chief attraction, aside from the summer and the beauty of the seclusion of the atmosphere in the city, is the unfailing attention and courtesy given all who come as delegates. The new auditorium now being constructed at the city's expense, will be one of the largest assembly halls in the United States, seating 12,500 people, and will offer still greater attractions for conventions.

**CLAIM COMPACT**

(Continued from Page 1.)  
hibits any combination of railroad officials to raise rates.

2. The suggestion is made and not denied that the President of the United States and members of the Interstate Commerce Commission are in accord with this plan.

3. To invite the attention of the President and Interstate Commerce Commission to the proposed action of the railroads.

Mr. Culberson said that two bills were now pending before the Senate Committee on Interstate Commerce, which are intended for the benefit of shippers. One is his own to compel the railroads to furnish an adequate supply of cars to all shippers without discrimination. The other is that introduced by Senator Fulton, requiring the Interstate Commerce Commission to hear complaints against increases in rates before they are made effective. Senator Foraker asked if he understood that rates are to be advanced with the concurrence of the Interstate Commerce Commission as well as that of the President, to which Mr. Culberson replied that the articles quoted made a statement to that effect.

Senator Foraker said he wondered that anybody who voted to give the Interstate Commerce Commission power to control rates should now complain about it. A year and a half ago, he said, this authority was given. From that day to this, he said, rates have been steadily advanced. He did not believe these increases would be upheld by the courts if they ever reached the courts. Senator Culberson said the present proposition is that the President of the United States and the Interstate Commerce Commission are openly permitting a violation of the Sherman anti-trust law by allowing the railroads to combine for increasing the rates. Senator Money said he would not believe the newspaper statements that the President and Interstate Commerce Commission were conniving at an open violation of the law.

Senator Foraker said everybody wanted the shippers to have the benefit of reduced rates, Congress conferred upon the Interstate Commerce Commission the power to supervise rates. There ought not to be any surprise manifested because the railroads are in consultation with the Interstate Commerce Commission regarding rates. It seemed to follow as a natural result from the authority conferred on the commission to regulate such rates.

**PURITY.**

The Eden Township Sunday school convention was held at Eden chapel Saturday afternoon. Delegates from two of the three churches of this district were present. The meeting was not as well attended as it probably would have been had it been better advertised.

Several persons from here attended the meeting addressed by S. M. Cooper at the Lutheran church in St. Louisville Sunday afternoon. This place was well represented at the baccalaureate services at the same place, Sunday night.

Rev. L. G. Walker's next appointment at Eden is next Sunday morning and evening.

Mr. and Mrs. Perry Van Winkle spent Sunday at the home of Mr. and Mrs. J. B. Colville where Mr. Van Winkle's mother, who is suffering with paralysis, is being cared for. Her condition is slightly improved and there is a chance for recovery.

## HAS RETURNED FROM ABROAD

MISS HELEN WILLIAMS OF GRANVILLE, MET NUMBER OF NEWARK PEOPLE IN BERLIN.

Ladies of Pretty College Town Received by Chapter of Phi Gamma Delta.

Granville, May 8.--Miss Helen Williams, who has been in Berlin since last August, has returned home. She sailed from Bremen on the "Groser Kurfurst" of the North German Lloyd line of steamers and after ten days reached New York in excellent health. She reports that she had a delightful time in Berlin meeting there among other Americans, Mrs. Webb and her daughter of Newark, Mrs. Mary Sheppard, widow of Doctor Daniel Sheppard Jr., and Miss Elsie Hershberg. Miss Williams was a student of Herr Otto Voss in the Stern Conservatory. As she arrived in Granville on her birthday a number of friends called at her home in the afternoon and gave her a birthday surprise and a hearty welcome.

Lambda Deuteron Chapter of Phi Gamma Delta received the ladies of Granville at their chapter home Thursday afternoon from 3:30 to 5:30. The house was tastefully decorated with palms and greenery. In the receiving line were Mrs. Gilpatrick, Miss Minnie Jones, Mrs. John Swartz, Morris Wyler, Theodore Johnson, Charles Kessler and John Swartz. In the dining room Miss Dorothy Kibler, Ruth Akers, Agnes Walsh, Lere Theobald, Bertha Fulton, Alva Edwards assisted, while Blonda Watt, Bess Bilman and Frances Edmonston presided at the punch bowl. On leaving the dining room each lady received a beautiful red rose as a favor. About 150 ladies were received.

The following invitations have been received by a number of women and young ladies of Granville:

## IRON TRADE REVIEW

Cleveland, May 8.--A few inconsequential sales of iron ore have been made within a few days. Most furnace men consistently maintain their position in opposition to lower prices, but others are endeavoring to obtain concessions without any prospect of succeeding. The present high price of generally considered the most vulnerable point in the price schedule on steel and finished products. It is reported that a New York state concern has closed with a customer in the Pittsburgh district for 7,000 tons of open hearth billets at about \$3 per ton below the regular price.

Pending the decision as to the price of pig iron to be made at the New York meeting, few sales of any considerable tonnage are reported, but many inquiries are pending, and some 6,000 tons were sold in the Chicago district, including 1,000 tons of malleable. We note the sale of 1,000 tons to a Cleveland foundry at \$14.45 a ton, the iron to contain not less than 25 per cent silicon, which in ordinary times would be considered No. 1 iron. Shading of prices of both steel and iron bars is reported in Chicago. A slight improvement is noted in orders for plates, and the plate mills of the Illinois Steel company will resume next Monday, with a prospect of being able to run for some time. In structural material, considerable improvement has developed in the west, and expenditures for school buildings and other public structures in the city of New York will require heavy tonnage. In the Chicago district a number of important enterprises are being held up owing to the expectation of lower prices of which there seems to be no prospect.

Some orders of good size for cast iron pipe have been taken, including 5,000 tons for St. Louis and 1,000 tons for Saginaw, Mich., and 700 tons for Jefferson, O., with very low prices prevailing.

Foundries are making some contracts for coke for the last half of the year, and one furnace interest has purchased 50,000 tons at the low price of \$1.55 at the ovens. The scrap market is weak, especially in Chicago, where some very large tonnage of old material are being offered by the railroads.

## ROBINSON

Tried to Use Putty Knife on Man and Was Arrested--Other News of Police Department.

George Robinson was arrested last night by Wagoner Brooke on complaint of a man that claimed Robinson tried to stab him with a putty knife. Robinson attempted to fight the officer, but a slight application of the officer's mace soon quieted him. He was given \$5 and costs when arraigned this morning.

A young glass worker placed a complaint against his boss last night, saying his superior was guilty of assault and battery. The boss showed up, but the boy didn't, and the accused man was dismissed.

A drunk and disorderly picked up during the night was handed \$5 and trimmings.

Francis Fritz who was injured during a fight at the Everett factory several days ago, is reported to be improved this morning. On his release from the hospital he will probably be arraigned before the mayor.

## FRIEND

Of Dan Malone Who Was Killed by a B. & O. Train is Being Held by the Police.

Louis Reming is in the city prison and he is being held for investigation. Reming was with Dan Malone, the Utica gas man when Malone was killed by a B. & O. train Tuesday night near the ice plant.

Nothing new has developed in the case, which was probably an accident, and the coroner has taken no new action in the case. Malone was formerly a resident of West Virginia, but for the past year he has worked in the gas fields through this section of the state.

## MISS BEDINI

One of the Hagenbeck and Wallace Riders Interviewed by Advocate Reporter.

"Does it always rain in this country?" asked Miss Flora Bedini of the porter of car No. 26 as she alighted this morning, after having finished an elaborate toilet even though the weather is not quite as nice as had been hoped for for circus day.

Miss Bedini is one of the star riders of the Hagenbeck and Wallace Show, and arrived in this country from Europe less than two weeks ago. As she has not struck a dry day since the troupe with which she connected landed in America she cannot be blamed for making an inquiry such as that of this morning.

"Does it always rain in this country?" she asked.

"Oh no," the porter replied. "We seldom run across such weather as this. Generally the eighth of May brings sunshine and warmth and life with a circus is great."

Miss Bedini is used to being with circuses in Europe and abroad circuses do not perform under tents but stay a month or so in one large city in immense buildings like the Hippodrome in New York. Last Saturday was her first performance under a tent and the life is all new to her.

"It would be alright if it just stopped raining," she added, addressing an Advocate man. "I don't mind the traveling and then the people are so nice to me. I don't speak English so well, yet they never laugh at me. Everyone is so kind and the audiences cheer and applaud us so nicely. It is a fine life if the sun would 'just shine.'"

"The weather will be a right 'few days,'" the reporter assured her. "That is what they all tell me," she laughed. "I guess you are like all of the American men--what is it you call them?--jollifiers?"

### GAMES TOMORROW.

Lima at Newark.  
Lancaster at Mansfield.  
Springfield at Marion.

### YESTERDAY'S RESULTS.

All games postponed; rain.

Again the game was postponed and the Marion team was forced to leave Newark having played but one out of the three games scheduled. No one was very sorry, for the Diggers were a disappointment as far as manners were concerned, and managers mentioned probably won't improve if they have such men as Handbree to keep them in subjection.

Little complaint has been made of them in the few towns they have played in so far this season, but they certainly gave a rank exhibition of rowdiness while here. The rain has put the diamond, one of the best in the circuit, in very poor shape, and it is doubtful that Lima will be able to play her opener here today.

Newark has eight postponed games so far this season. That will mean that several double headers will have to be played to straighten the schedule out. The players are all chafing from their enforced idleness, but they realize that stacking up against the weatherman is a pretty stiff job and a losing proposition.

However, this weather can't last long, and before more than a week or so has passed, the sun will probably make up for lost time and summer will be here in earnest. It will be a mighty welcome season and will be heartily received.

Not a game was played in the league yesterday and not a ball was thrown in the National or American leagues. The American Association was more fortunate and several games were played. It has been a backward season for baseball, but the big leagues have been more fortunate and they have been able to play of their schedule in pretty fair shape.

### NO GAME TODAY.

On account of wet grounds there will be no game today between Lima and Newark.

## BOOKER WASHINGTON TO ADDRESS CONVENTION

Montgomery, Ala., May 8.—Despite a protest raised against his appearance Booker T. Washington will be one of the speakers at the coming convention of Sunday schools at Louisville. It was learned today that a vigorous protest was made against the negro leader at a meeting of the Alabama executive commission.

Mayor V. B. Atkins, of Selma, led the fight against Washington. It was finally decided the protest came too late.

## SIR THOMAS LIPTON'S NEW YACHT.

SIR THOMAS LIPTON'S YACHT, SHAMROCK.

Sir Thomas Lipton's new 21 meter cutter, the Shamrock, was launched at the yard of her designer and builder, Mr. Wm. Fife, Fife, Scotland, on Saturday, April 18. The illustration herewith shows the new racing yacht as she appeared just before launching and is the first picture of the craft that has reached America.

The Shamrock, the critics say, is an exceptionally handsome model of easy sections, which carry their fullness well into overhangs, which, in view of the new rules adopted abroad, might almost be regarded as extreme. The hull is planked with Honduras mahogany laid upon a frame work of steel, the sides being painted in green and white and the underbody coppered. Internally the fittings are more than

usually elaborate. The roomy fore-cabin, messroom and captain's berth are fitted up with African mahogany, and the saloon, passage and sail lockers in Austrian oak. The main saloon is paneled in tapestry, and the ladies' cabin and staterooms are simply in white enamel. Round the stateroom there is some exceptionally fine carving, representing commerce and navigation.

## HON. J. M. MORGAN

Big Meeting Sunday For Organized Labor and All Working Men—A Strong Program.

Through the Trades Council of the city a special invitation is extended to all labor organizations and other laboring men to hear the program at Taylor Hall next Sunday afternoon. Hon. John H. Morgan, State Inspector of Shops and Factories, will come from Columbus and talk to the men. He will speak on the subject, "The Moral Value of Physical Toil." Mr. Morgan has risen to his present position from the ranks of the common laborer and is a man among men. He has a wide sympathy and interest in the laboring man and his problems, and comes with a wide experience. He is an interesting speaker and should prove a popular speaker next Sunday.

Rev. T. A. Cosgrove of the First Presbyterian church will also address the meeting on the subject, "How Can the Church and the Laboring Man Get Closer Together?" Both men are excellent speakers and students of labor problems. Special music has been arranged for this meeting, consisting of an orchestra and male quartet. All men will be welcome to this meeting. Music begins promptly at 3 p. m.

# ART EXHIBIT

AT STORES OF T. M. EDMISTON AND HAYNES BROS. PROVER VERY INTERESTING.

Views Were Work of Professionals and Amateurs Featuring New Photographic Process.

Hundreds of Newark art lovers and amateur photographers visited the elaborate and highly instructive exhibit held in Assembly Hall, Union Block, Wednesday and Thursday, by the Eastman Kodak company's expert representatives. In the interests of the company's local dealers, T. M. Edmiston and Haynes Bros.

Several hundred beautiful views, the majority being the work of amateurs, were on exhibition, featuring the new enlarging process, known as "Ozobrome," which has just been perfected by the company within the past few months. The new process is so complete that enlarged views possess a much desired quality which is often absent in the original print, and yet so simple that it can be operated by a child.

The views were all attractively mounted on twenty large screens, elegantly and neatly trimmed to set off the views and add the desired effects. Demonstrations in finishing negatives were given, a large number of works of local amateurs who had failed to get results on some negatives, being rapidly developed into highly satisfactory views. Examples of fancy borders on prints were explained and made perfectly clear and simple.

On the new enlargement process it is possible to bring out 12 different colors. These coloring schemes were especially noticeable in an enlargement of a photograph of a group of American Indians.

The demonstrators who conducted the exhibition here closed the lectures Thursday night and go from Newark to Chillicothe. The Eastman Kodak company has four of these crews touring the country. The exhibit which left Newark carried 4,000 pounds of baggage and hundreds of pictures.

The Eastman company has been growing rapidly for sixteen years, and the first camera of this make sold in Newark was introduced by Mr. Edmiston 12 years ago. The company spares no expense in advertising and in this way has built up an extensive and most satisfactory business.

## OUT OF THE BAY

The following verses were written by Edgar King of the graduating class of 1908, Hanover High school on the class motto:

"Out of the Bay Into the Ocean." We, the class of nineteen eight, Have been working hard of late, To push the ship off from the shore, Trying harder, evermore.

First the sands upon the beach Would slip, and slip, from under each.

But we worked like all creation, 'Till we built a firm foundation.

Then we pushed with all our might, First to left, then to right, 'Till at last, this very day, We pushed the ship into the Bay.

Now, you and I, and everyone, Know that we have just begun To set our sails into motion Out of the Bay, into the Ocean.

## OIL & GAS NOTES

Drillers in the employ of the Ohio Fuel Supply company have commenced work on the Frank Sutton lease near Locke.

The Columbus company is getting ready to drill a well on the Deyo farm in the McKean field.

The Logan company will drill a well on the farm of Mrs. Thomas Donaway, west of the village.

The North American company will soon build rig No. 3 on the E. M. Jewett farm, southwest of Granville.

The Columbus Gas and Fuel company recently drilled in a two million well on the Roberts farm, several miles south of Utica.

Several Granville people have taken stock in the various gas and oil companies operating in the Bremen and Rushville oil fields.

The Logan company has made locations on the farms of Price Jennings in Miller township, and George Vanatta in Pleasant township, both in Knox county, and on the Frank Perkins farm near Locke.

The Columbus company will run four strings of tools in this field this summer. The Ohio Fuel now has three and intend to add more. The Logan has made several locations, while the Heisey company, Everett company and Columbus Gas and Fuel company all intend doing a lot of work also.

The Ohio Fuel has three strings running in this field, three in the Bremen and will soon start several strings in the Licking-Knox field.

The Ohio Fuel has finished their 8-inch line from the Howell farm to their 12-inch north on the Chism place. It will be tested tomorrow.

The Logan company drilled in a three million well with 30 feet of sand this week, on the Michael Lorenz farm in the Union field. No. 2 well is going down.

Norman G. Buxton, who for several years was connected with the leasing department of the Ohio Fuel and later with the Heisey company in the same capacity, will soon leave his home in Johnstown for New Mexico and Arizona for his health. It is hoped that the trip will prove a great benefit to him and that upon his return his general health may be good.

Miss Chloe Sherritt closed her school here Friday with an entertainment in the afternoon. Much credit is given her for the good training she had given her scholars. The parents of the children and neighbors gave Miss Sherritt a surprise by coming with well filled baskets at the noon hour, all enjoying a good dinner.

# ARRANGING FOR EXHIBITION OF GERMAN SCULPTURE

Professor Walter Schott, one of Germany's most noted sculptors, has come to this country to arrange for an exhibition of German sculpture here next year.

Prof. Schott seemed delighted by the different impressions already received of our country and people and expressed himself as being extremely sorry not to be able to stay longer than a very limited time in a country—as he expressed himself—“whose people and institutions are not only admired by every German, but, first of all, by their beloved Kaiser.”

Of course he will exhibit a good deal of his own work, but judging by the names of the exhibitors Germany is sending over the works of art of her best men. The names have, all of them, an international ring of fame. There are names like Begas, Bruck, Klinsch, Lessing, Schaper, Hildebrand, Lederer, Dietz, Hahn, Metzger, Suock, Tschudi, Wolfelin and others. All are men not only of the highest artistic standing in their own country, but famous all over the artistic world. There is, for instance Prof. Begas. Every American who has ever been in Berlin has seen and admired his fountain of Neptune, facing the rear of the imperial palace, or the wonderful statue of William I., the grandfather of the present Kaiser. And those that have remained a little longer in Berlin and have had time to look around will surely remember with pleasure the wonderful statues in the “Tiergarten” and other places. They will remember “Pan and Psyche” and the splendid work “Centaur and Nympha.” Prof. Begas, now a man of 77 years but still as lively and hard working as any youth, has been accorded the title of “Altmeister,” which means as much as master of masters.

# 100 TICKETS FOR CIRCUS ARE GIVEN CHILDREN

In consideration of the fact that the public schools were dismissed Friday, the circus management gave 100 complimentary tickets to the school board for distribution among children who otherwise could not have gone to the show. The tickets came late last night and it took some hustling upon the part of President Begas, Superintendent Simkins and Truant Officer Jones to distribute them among worthy children. One hundred little folks were made happy by this act of kindness upon the part of the Wallace-Hagenbeck management.

Following is the correspondence which passed between President Begas and Col. Wallace:

Hagenbeck & Wallace Shows, Dayton, Ohio.

Gentlemen:—We contemplate the dismissal of our public schools on May 8th in order that the 4,200 pupils may have an opportunity to attend your show. This is an unusual recognition and tribute to the merit of your show on the part of the Board of Education. We trust it will be so appreciated by you that you will not consider presumptuous our request for 100 tickets for indigent pupils.

Should you grant this request we will see that these tickets are distributed among pupils who have never seen a circus and who have no prospects for such indulgence.

Very truly yours,

F. L. BEGGS,  
President Board of Education.  
Dayton, O., May 6, '08.

Mr. F. L. Begas, President Board of Education, Newark, Ohio:

Your favor of the 5th inst., is at hand and I note that your public schools will be dismissed in order to give the children of Newark an opportunity to see our exhibit next Friday. We have a show which is a little different from the average run of circuses, and I know that the people of Newark will agree with me after they have seen the show, that we have the best trained animals that have ever been exhibited in this country. It will be a great day for the children of Newark and I am sure you will be amply repaid for allowing them to remain away from school that day.

I take pleasure in enclosing you herewith one hundred tickets which will be good for the afternoon only and for the use only of one hundred of the children who could not attend the show and pay their admission. Please accept same with my compliments. These tickets will be honored when presented by a school boy or a school girl.

Yours sincerely,

B. E. WALLACE.

# RARE STAMPS

Exhibited by H. S. Fleck Before the Columbus Collectors' Club Wednesday Evening.

Stamps of British Africa, from the splendid collection of Henry S. Fleck of Newark, were exhibited and discussed at last night's meeting of the Columbus Collectors' club, in the assembly room of the board of trade, says the Ohio Sae Journal. Mr. Fleck's collection is particularly rich in the earlier African issues, the triangular Cape of Good Hope stamps being shown in pairs and blocks in all the rarest shades. He also showed a large collection of Confederate provisional and local stamps on the original covers.

I. R. Johnson, president of the Chicago Philatelic club, was among the out-of-town collectors present. Other visitors were H. H. Johnston of London; W. H. Shaffner, C. D. Shaffner and R. R. Wright or Marion, and Mr. Fleck.

# WEAK FROM SUFFERING UNABLE TO PERFORM WORK

# Discouraged After Spending Money Without Benefit—Found Help at Last.

Mr. Earl McCoy, living at 1506 So. Branson Street, Marion, Ind., has passed through an experience that is being duplicated every day in every town and city of any consequence in the United States. It furnishes abundant proof of the correctness of L. T. Cooper's theory in regard to the degeneracy of the human stomach, and shows conclusively the merit possessed by his New Discovery medicine to restore the weakened system to full strength and vigor.

Mr. McCoy says: "For a long time I have been a sufferer from stomach trouble. I was unable to retain any food, and became so weak and run down that I was compelled to stop work. My system was nearly a wreck, and I had tried so many remedies and spent so much money without deriving any benefit, that I became discouraged and gave up hope of ever being well again.

"I heard a great deal of Mr. Cooper's theory and medicine, and after much hesitation decided to try it. The result was a pleasant surprise. Before I had taken half of the first bottle I was able to retain all food eaten, and my strength began to return. I have taken six or seven bottles, and am feeling fine. I eat and sleep well, do not cough at night, and am able to perform a hard day's work. I can cheerfully recommend Cooper's New Discovery, for it has done wonders for me."

The Cooper remedies are meeting with remarkable success wherever they are introduced. They are without a rival in toning up a weakened and run-down system. We sell them. —City Drug Store.

## JUDGE BRISTER SUSTAINED

IN THE APPEAL TAKEN TO THE COMMON PLEAS COURT

In the Local Option Election Case Pertaining to the Village of Johnstown.

The Advocate prints below a decision of Judge C. W. Seward of the Common Pleas court, in the appeal taken to him from Probate Judge E. M. D. Brister's decision in the case of Louis Seesholtz against the Village of Johnstown, as it is a matter of general interest. A local option election was held in the Village of Johnstown on the 3d of December, 1907, and the result of the election was that the "dry" won by a majority of 38 votes. The "wets" then appealed the case to the Probate court on the claim that the local option election was illegal and void because the petition for the election did not contain the signatures of the required number of legal voters of the village. A large number of witnesses were summoned and after hearing a great amount of evidence and arguments of counsel, Probate Judge Brister held the election legal and dismissed the petition. Seesholtz, representing the "wet" element, took an appeal from Judge Brister's decision to the Common Pleas court. Judge Seward, as will be seen by his decision below, sustained Judge Brister's decision on every point and dismissed the appeal, commending Judge Brister's decision in the highest manner.

Louis Seesholtz vs. The Village of Johnstown. This is a proceeding in error, brought to reverse the judgment of the Probate court, sustaining the legality of an election on the 23 of December, 1907, under the local law, as found in Sec. 4364-20a Revised Statutes, to and including 4364-20f.

The plaintiff in error sought to impeach the validity of the election, and filed his petition under favor of Sec. 4364-20f; and he assigns as reasons why he thinks the election was illegal:

First. Because the election was not legally called by the Village Council; because, as he says, 40 per cent. of the qualified voters of the village did not petition for the privilege.

Second. Because certain persons whose names were signed to the petition did not, in fact, sign the same, or authorize any person to sign their names thereto, and the same appear fraudulently upon the petition.

Third. Because certain persons whose names were signed to the petition were not, at the time of the signing of the same, electors of the village.

The second and third grounds for contest, stated in the petition of the contestant, filed in the Probate court, are demurrable, as the court views the matter.

The petitioner should state facts, which, if true, would invalidate the election. Are there such facts stated? True, he says that certain persons, whose names are signed to the petition, did not sign, or authorize any one to sign their names thereto, and that certain persons who signed the same were not qualified electors. But, suppose that be true; if there still remains the requisite 40 per cent. of legal petitioners, is the election to be invalidated because some one or more signed who were not qualified under the statute as petitioners?

And the court would have been justified in excluding any testimony upon those two grounds. And, according to the conclusions of the court below, the first ground of complaint was because fatal on demurrer.

The first ground for attacking the validity of the election is briefly stated.

That 40 per cent. of the qualified electors of the village did not petition the council. The court held that it didn't require 40 per cent. of the electors of the village, but 40 per cent. of the qualified electors who voted at the last preceding municipal election. So, what matters it, if a number equal to 40 per cent. of the qualified electors residing in the village did not sign? If the pleader had stated that less than 40 per cent. of the qualified electors who voted at the last preceding municipal election had signed the petition, then he would have stated a case of contest in the law. The court took it as it was, and the construction he gave the law.

Suppose the court had permitted the time to be taken to show every qualified elector who resided in the municipality at the time of the presentation of the petition; and then determined that the statute only required 40 per cent. of those who voted at some preceding election; I think the court would find that a great deal of valuable time had been wasted.

I know that the pleader has stated that the election was not legally called, and that the council was not authorized to call the same; but these are conclusions of law and not statements of facts; and, according to the finding of the court, the statements
